Fall Convocation

UNIVERSITY OF
SASKATCHEWAN

Convocation procession in the Bowl, May 1928. A-1666

Convocation Procession - University of Saskatchewan
Saskatoon Sask. May 4, 1928

The graduation lists shown in this program were prepared prior to convocation and may not reflect final college decisions regarding each student's eligibility for graduation. As a result, some of the students listed in this program may not have been formally approved to receive the degree or diploma indicated. The registrar maintains the official list of graduates.

PRESIDENT'S MESSAGE

PETER MacKINNON

I want to express a very warm welcome to the graduates, families and friends who join us today for this very important ceremony. It is here at Convocation that we recognize and celebrate the accomplishments and achievements of our students as well as the contributions and support of their loved ones to their success. You should be proud of this day and of the commitment and sacrifice that it represents.

We at the University of Saskatchewan are very proud of our accomplishments and it is thanks in large part to you, our students, who have

helped us to achieve our goal of building a world-class institution of higher learning.

We extend to you our very best wishes for the future. We hope that you will stay in touch with us through our University of Saskatchewan alumni family, and that we will have the opportunity to welcome you back to campus many times in the years ahead.

Warmest congratulations!

ALUMNI MESSAGE

HEATHER MAGOTIAUX

Congratulations to the class of 2011—the 100th University of Saskatchewan graduating class.

Our first graduating class in 1912 was small with just eight graduates. Little did those farmers, politicians and business people know that their fellow alumni would one day include a Canadian prime minister, Nobel Prize winners, Olympic medalists, Rhodes Scholars, literary prize winners, and leaders in almost every imaginable profession and field of study.

As you pass from U of S student to U of S alumnus, you stand with over 135,000 living graduates who, year after year, continue to build upon the foundation of success that traces back to those eight men and women. Just as you had the support of your family,

classmates, professors and numerous others to help you achieve success as a student, you now have the support of your U of S alumni family to help you along your journey of learning and discovery.

My hope is that future generations will look upon your achievements with respect and wonder, aspiring to build upon your success—just as you build upon the legacy left by the first 100 years of U of S graduates. I encourage you to share your success with us, so we can celebrate together and share it with the world.

Congratulations class of 2011, and welcome to the U of S alumni family.

Heather Magotiaux
Vice-President, University Advancement

THE CHANCELLOR

VERA PEZER

Dr. Pezer has a long association with the University of Saskatchewan, earning her undergraduate and graduate degrees from the university and serving as associate vice-president (Student Affairs and Services) from 1991–2001. Dr. Pezer first joined the

university in 1966 in Student Counselling Services and as a part-time instructor in the Department of Psychology. She would later become director of student counselling, an assistant professor of psychology and assistant dean, College of Arts and Science. Under her leadership, student retention and academic success were enhanced and the university's first offices dedicated to student emergency financial assistance, disability services for students, and aboriginal student support programs established.

She has held volunteer and leadership roles with the Saskatoon Board of Police Commissioners, Saskatchewan Centennial Gala, Hope Cancer Race for Recovery, Saskatoon Housing Coalition, Persephone Theatre and the YWCA. Dr. Pezer has also contributed widely to professional and amateur sports organizations. She is a member and current chair of the 1989 Jeux Canada Games Foundation, director of the 1991 Scott

Tournament of Hearts and ceremonies chair of the 1989 Brier. As a sport psychologist, Dr. Pezer served as an adviser and trainer to Canadian curling teams in two Olympic Games.

An accomplished athlete in her own right, Dr. Pezer is a four-time Canadian ladies' curling champion, a Canadian softball champion, and two-time member of the Saskatchewan senior women's golf team. She has received a place of honour in the Saskatoon and Saskatchewan Sports Halls of Fame and in the Canadian Curling Hall of Fame. In 2003, Dr. Pezer completed her first book, *The Stone Age: A Social History of Curling in the Prairies*. She has just published her second, titled *Smart Curling*. Dr. Pezer was honoured with a Saskatchewan Centennial Medal in 2006, and in 2002, received the University of Saskatchewan Alumni Award of Achievement.

Fall. Convocation

The first Convocation granting earned degrees was held Wednesday May 1, 1912 at the Collegiate Institute.

As a reporter for the Daily Phenix noted, the ceremony was the culmination of three years' work on the part of professors and students, and an event of great historical importance in the life of the university. While a handful of graduands huddled in the lower hall of the Collegiate Institute (now Nutana Collegiate) waiting to take their place in the convocation procession, the assembly hall was "comfortably filled" with students and interested outsiders, curious to witness the first seven graduates of the University of Saskatchewan take their B.A. degrees.

As the procession, including President Walter Murray, Chancellor Edward L. Wetmore, members of the faculty, senate and board of governors, wound its way up the stairs and down the aisle to the platform, the reporter was clearly impressed with the spectacle, describing "the flowing robes with hoods of white, slate blue, violet, gold, apple blossom, scarlet, according to the various degrees carried by the owners, a very imposing sight."

The following year, the ceremony would move to Convocation Hall in the newly completed College Building. In 1931, Convocation moved off campus to the larger facilities of Third Avenue United Church. The ceremony moved back to campus in 1950 to the University Gymnasium in the newly completed Physical Education Building. Aside from a few Special Convocations, the ceremony has been held at TCU Place since 1968.

This year more than 4,000 graduands will receive degrees during our convocation ceremonies. Though much has changed at the University of Saskatchewan during the 100 years since the first graduating class, the ceremony itself remains virtually unchanged.

Photos clockwise from top left:

Female graduates pose in front of the College Building, 1917; Graduands at the 1936 Convocation ceremony held at Third Avenue United Church (B-150); Gordie Howe honorary degree presentation, 2010; Graduands wait backstage for their turn to on stage, 2006; Honorary Degree Recipient, Gov. Gen. Ray Hnatyshyn with Lieutenant Governor Sylvia Fedoruk, 1990 (A-8014); T.C. Douglas honorary degree presentation, 1962 (A-8633); Degree presentation, 1973 (S5200); Agriculture Graduation banquet, 1947 (A-2627)

The class of 1912

The U of S had from its inception intended that women should have access to higher education. The University Act bolstered that aim, stating “no woman shall by reason of her sex be deprived of any advantage accorded to male students of the university.” In fact, of the three students from the class of 1912 who earned honours, two were women. Mary Oliver, high honours in Classics and the Copland Scholarship, and Marion Pettit, honours in English and History. David Hossie earned honours in Latin and English and was Rhodes Scholar.

Might Mary Oliver, the best student that year, have been a contender for the Rhodes Scholarship? It’s impossible to say since it was a privilege out of her reach. Oxford University, host institution for the Rhodes, did not confer degrees on women until 1920; and the Rhodes remained unavailable to women until 1976. (University Archives)

Twin brothers DOUGLAS (BA’12, LLB’15) and HOWARD (BA’12) MCCONNELL enrolled at the U of S in 1909 after moving to Saskatoon from Ontario in 1907.

Douglas (top photo) dived into athletics; Howard focused on politics, becoming the first president of the Student’s Representative Council (SRC). Both pursued law studies, Douglas at the U of S and Howard at Osgood Hall in Toronto.

Both built successful legal practices win Saskatchewan, but Howard’s involvement in politics brought him into the limelight. In 1922, he became the first U of S grad to become Mayor of Saskatoon. In 1927, he was elected to the provincial legislature as MLA for Saskatoon, serving until 1934. Howard was also a member of the U of S Senate from 1923-1946, and was instrumental in raising funds to erect the Memorial Gates. Howard passed away in 1957 and Douglas, who was the last surviving member of the original graduating class, died in 1978.

MARION BRUCE PETTIT (BA'12) Like many early students, Marion Bruce Pettit (BA'12) was born in Ontario. She began her university career at Victoria College (University of Toronto). When her family moved west, she transferred to the U of S to complete her degree. She earned honours in English and History, while also serving on the SRC and as a councillor for Penta Kai Dekka, the society for female students established in 1911. After leaving the U of S, Marion married lawyer George Cruise. She passed away in 1955.

MARY ISABELLA OLIVER (BA'12) was one of the brightest students of her year. Mary not only earned a Copland Scholarship, but was the president—and likely a founding member—of the Penta Kai Dekka Society. She would earn a degree with high honours in Classics, and serve as University librarian. Mary went on to marry fellow alumnus Frank Lloyd (BA'14). She passed away in 1961.

The life of **WILLIAM EXTON (W.E.) LLOYD** remains somewhat of a mystery. We know his date of birth—January 10, 1890—and that he was the recipient of the first exam ever given at the U of S, which was a matriculation exam delivered in September of 1909. We know, too, that he was a member of the first U of S track and field team, as well as a member of the original Graduation Year Book Board. Although William appears in this photo wearing his convocation robes, it appears he actually did not graduate from the U of S.

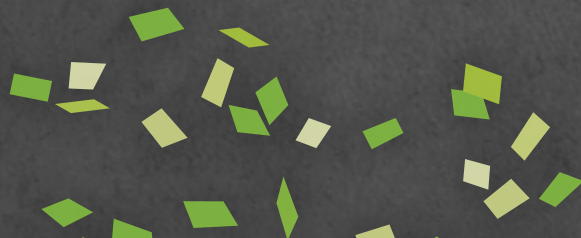

DAVID NEIL HOSSIE, D.S.O, K.C., Q.C. (BA'12) was the university's first Rhodes Scholar. A brilliant student, he entered on a Meilicke Exhibition Entrance Scholarship, earned the prestigious Copland Scholarship two years in a row, then capped it all with the 1912 Rhodes Scholarship. He entered Oxford University, but soon put his academic career on hold to serve in World War I, for which he was honoured with the Distinguished Service Order. After the war, David completed his MA at Oxford and returned to Canada, becoming a partner in a prominent Vancouver law firm. He died in 1962.

JOHN JAMES MOORE (BA'12) was the only member of the first graduating class to have been born and raised in Saskatchewan (although at the time of his birth it was technically still considered the North-West Territories). At the U of S, he played football, boxed and served as president of the Literary Society. He wanted to become a lawyer, but like many young men was inspired to enlist in the 196th Battalion, which was made up of students and faculty from Canada's four western universities. John was killed in action in 1917, most likely at Vimy Ridge. He was only 26.

JOHN STRAIN (BA'12, BSA'15) Born in County Down, Ireland, John Strain (BA'12, BSA'15) enrolled at the U of S in 1909 at the age of 24. He went on to study agriculture, earning his BSA in 1915. His life took a dramatic turn when he enlisted in the Queen's Battery in WWI. In France, he became a field instructor—not in the science of war, but at the University of Vimy Ridge, a soldier's university created by Capt. Edmund Oliver, the university's first professor of history and first principal of St. Andrew's College. John returned home in 1919 and farmed in the Birch Hills area until his death in 1973.

Honoris causa

Latin: 'for the sake of honour', usually describing an honorary university or college degree

The University of Saskatchewan has conferred more than 400 honorary degrees throughout its history. The honorary degree is the highest honour the university can bestow and is intended to award those who have made outstanding contributions to scholarship, education, the arts or public service, or to the local, Canadian or global public good.

Under University Senate bylaws, the following honorary degrees may be granted by the university:

Doctor of Civil Law, honoris causa – D.C.L.

Doctor of Laws, honoris causa – LL.D.

Doctor of Science, honoris causa – D.Sc.

Doctor of Letters, honoris causa – D. Litt.

Normally, one honorary doctorate is conferred at each convocation ceremony.

From former prime ministers to physicists to poets, 418 outstanding individuals have donned the university's doctoral robe, 'honoris causa' bringing honour to themselves and the University of Saskatchewan.

Honorary degree recipients,
(top) J.G. Diefenbaker, 1958 (A-1714),
and Gordie Howe, 2010.

				Desmond Morton	D. Litt.

The Ceremony

The word “convocation” arises from the Latin “cum” meaning “together,” and “vocare” meaning “to call.” Our convocation ceremony is a calling together of the new graduates of the University of Saskatchewan, symbolizing

the historical practice of calling together all former graduates. In current times, the major functions of convocation are the election of representatives to university governing bodies and the admission of candidates to degrees. The chancellor, appointed by senate as the chair of convocation, is the highest official and spokesperson of the university.

The convocation ceremony marks the transition from the role of student to the holder of a degree with its accompanying rights and privileges.

The ceremony, solemnized in the presence of the university community and family and friends of the graduands, consists of three parts: a procession marking the leaving of the old status and entering the new; the president’s statement to the graduands, the secretary’s petition and the chancellor’s consent for their admission; followed by individual presentation by their dean and admission by the chancellor to the degrees to which they are entitled. As graduates are admitted to their degrees, a graduation hood, which has a colour symbolizing a particular degree, is placed over each graduate’s head.

"I consent to admit you to the degrees and certificates to which you are entitled"

ENTRANCE

The members of convocation in their academic robes march in procession into the ceremony in the following order: graduands in the order in which their degrees are to be conferred; faculty; board of governors; senate; guests of honour; the president; the chancellor; the lieutenant governor. When the members of convocation reach their places they remain standing during the Vice-Regal Salute, the singing of O Canada and the invocation.

ORDER OF THE CEREMONY

The first business is the conferring of honorary degrees, followed by convocation address, president's statement to the graduands, the conferring of degrees and the presentation of awards. The meeting is closed by the chancellor rising and leading the procession in the reverse order out of the hall.

DEGREE CEREMONY

The ceremony comprises the petition, the admission and the presentation.

THE PETITION

The university secretary on behalf of all the candidates, addresses the chancellor and senate in these words:

"Eminent Chancellor, Mr. President, members of the University Senate and Board, I present to you the petition of the Council of this University that the candidates to be named, having fulfilled all the requirements of the bylaws, may, with your permission, be admitted to the degrees and certificates to which they are entitled".

THE ADMISSION

The chancellor then addresses the candidates in these words:

"By virtue of the authority vested in me by the legislature of this province, and with the consent of the council of this university, I consent to admit you to the degrees and certificates to which you are entitled and to invest you with all the powers, rights and privileges pertaining thereto."

THE PRESENTATION

The dean of the faculty, or designate, followed by the candidates of that faculty, approaches the chancellor from the left and presents the candidates with these words:

"Eminent Chancellor, on behalf of the faculty/school of _____, I present to you these scholars and ask that you will confer on them the degree of _____."

As the dean speaks the candidate's name in full, the candidate moves forward in front of the chancellor. Then the chancellor says, "I admit you" and the university secretary or the registrar places the hood over the candidate's head. Hereupon the candidate passes to the chancellor's right, is greeted by the president, and receives the degree parchment.

DEGREES IN ABSENTIA

In such cases, the university secretary says:

"Eminent Chancellor, in the name of the faculties, I ask you to grant the degrees and certificates, in absentia, to those students who have met the requirements to graduate, but were not able to be present today."

THE CONVOCATION CEREMONY

ACADEMIC COSTUMES

Academic costume lends an element of colourful pageantry to the convocation proceedings. This traditional clothing—worn on a daily basis at universities in earlier times—is now more commonly reserved for ceremonial functions.

At the University of Saskatchewan, the following academic costume is adopted to be worn upon all appropriate occasions: The gown resembles a long cape with full sleeve cut to elbow and terminating in a point for the bachelor's degree; with long sleeve and a semi-circular cut at the bottom for the master's degree; and with round open sleeves for the doctor's degree. The material is black for the bachelor's degree, and black material or silk for the master's and doctor's degrees. The doctor's gown may have a border down the front on either side of a color distinctive of the character of the degree.

The hoods for the bachelor's and master's degrees are of black broadcloth. The master's and doctor's hoods have a lining and the bachelor's an edging (and in some cases, a lining) of a color distinctive of the character of the degree.

This year, the University of Saskatchewan unveils a new tradition with a redesigned doctoral robe. A departure from its scarlet and blue predecessor, the new robe incorporates the U of S colours of green, gold and white in the silk hood, front panels and velvet chevrons on the sleeves. The new Ph.D. hoods have a green silk lining with gold trim and the honorary degree hoods feature a white satin trim. A velvet Beefeater style hat with a green, gold and white tassel has also been added.

UNDERGRADUATE DEGREE

COLOURS

Agriculture and Bioresources (Bachelor of Science in Agribusiness) – turquoise band of trim

Agriculture and Bioresources (Bachelor of Science in Agriculture) – light blue band of trim

Agriculture and Bioresources (Bachelor of Science in Renewable Resource Management) – singapore blue satin outside band of trim and medium blue inside band of trim

Advanced Certificates – Current degree colour worn on shoulders

Arts (Bachelor of Arts) – white satin band of trim

Arts and Science (Bachelor of Arts and Science) – teal blue outside band of trim and white satin inside band of trim

Dentistry (Doctor of Dental Medicine) – mauve lined hood and band of trim

Education (Bachelor of Education) – violet band of trim

Edwards School of Business (Bachelor of Commerce) – maroon outside band of trim and silver inside band of trim

Engineering (Bachelor of Science in Engineering) – dark red band of trim

Fine Arts (Bachelor of Fine Arts) – pink outside band of trim and white inside band of trim

Kinesiology (Bachelor of Science in Kinesiology) – gold lined hood with green band of trim

Law (Juris Doctor) – gold band of trim

Medicine (Doctor of Medicine) – deep rose lined hood and band of trim

Music (Bachelor of Music) – red band of trim

Nursing (Bachelor of Science in Nursing) – gold lined hood and red band of trim

Nutrition (Bachelor of Science in Nutrition) – green lined hood and band of trim

Pharmacy (Bachelor of Science in Pharmacy) – gold outside band of trim and purple inside band of trim

Science (Bachelor of Science) – teal blue band of trim

Science (Bachelor of Science in Renewable Resource Management) – singapore blue outside band of trim and blue inside band of trim.

Veterinary Medicine (Doctor of Veterinary Medicine) – gold lined hood and deep blue band of trim

GRADUATE DEGREE COLOURS

Master of Agriculture – light blue lined hood and band of trim

Master of Arts – white lined hood and band of trim

Master of Business Administration – burgundy lined hood and band of trim

Master of Educational Foundations – violet lined hood and gold band of trim

Master of Education – violet lined hood and band of trim

Master of Engineering – maroon lined hood and band of trim

Master of Environment and Sustainability – forest green outside band of trim and antique ivory inside band of trim

Master of Fine Arts – pink lined hood and band of trim

Master of International Trade – silver outside band of trim and maroon inside band of trim and lining

Master of Kinesiology – gold lined hood and green band of trim

Master of Laws – gold lined hood and band of trim

Master of Music – red lined hood and band of trim

Master of Nursing – red lined hood and band of trim

Master of Physical Therapy – crimson outside band of trim and old gold inside band of trim and lining

Master of Professional Accounting – grey lined hood and band of trim

Master of Public Administration – royal blue outside band of trim and silver inside band of trim and lining

Master of Public Health – brown seal lined hood and band of trim

Master of Public Policy – sky blue sating outside band of trim and silver metallic satin inside band of trim

Master of Science – teal blue lined hood and band of trim

Master of Sustainable Environmental Management – pale green outside band of trim and forest green inside band of trim

Master of Veterinary Medicine – deep blue lined hood and band of trim

Post Graduate Diploma – current degree colours worn on shoulders

Doctor of Philosophy – black with green silk lining and brite gold trim

Earned D.Sc. and D.Litt. – black with green silk lining and white trim

HONORARY DEGREES

D.Sc. and D.Litt. – black with brite gold lining and white trim

LL.D. – black with brite gold lining and white trim

Chancellor – a black silk robe with crimson velvet sleeves, trimmed round the collar and down the front edges with broad gold lace (and round the bottom of the sleeves with narrower gold lace), and a black silk velvet trencher with gold button and tassel.

Vice-Chancellor (President) – same design as the chancellor's gown and trencher. The vice-chancellor's gown shall be of the same material as the chancellor's but with silver braid on the facing instead of gold and a black silk velvet trencher with silver button and tassel.

OUR SONG

(An excerpt)

*Sing for Saskatchewan,
And let your song ring out,
And rise for Saskatchewan,
Saskatchewan we shout.
Think of the days you've known,
Inside the greystone walls,
Then rise for Saskatchewan,
Give your song, your heart,
your all.*

— Words and music by Neil Harris, 1951

OUR TEAM

The U of S Huskies are at the centre of our school spirit. With over 350 athletes, 15 teams and countless championship titles, the U of S has developed a reputation as a dominant player in interuniversity sports.

Great Minds

SINCE 1907

the University of Saskatchewan has been building a proud tradition. We have evolved from a prairie college to a centre of excellence in education and research. Our students, faculty, staff and alumni are a testament to our success. Their example has set a precedent for institutions across Canada, North America and the world.

Celebrating a

ST. THOMAS MORE COLLEGE MARKS 75 YEARS

The year 2011 marks 75 years since St. Thomas More College (STM) was established by the Basilian Fathers as a Catholic liberal arts college in federation with the University of Saskatchewan. Since its beginnings in 1936, STM has come to hold a respected place within the U of S and the larger academic world for its teaching, scholarly work, community outreach and pastoral ministry.

Spring 1930: Newman Club members pose in front of Newman Hall, the white house which would later become the first home of STM.

Growth requires construction of an addition to STM's facilities (the white house).

Liturgical art works by Lionel Thomas and Robert Rambusch are installed in the college's new chapel.

College construction phase 2 adds Shannon Library, cafeteria, boardroom, art gallery, Murray Room.

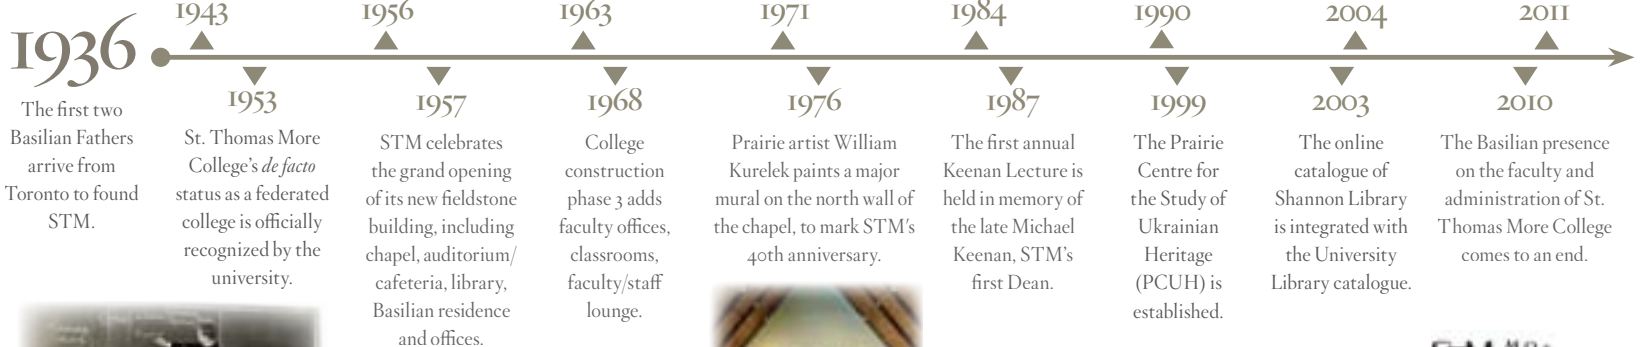

STM Corporation expands to include lay faculty and non-Catholics in addition to Basilians.

The newly-granted official STM coat of arms includes the inset U of S crest.

John Thompson becomes the first non-Basilian president of STM.

The Engaged Learning Program, involving community service learning locally and internationally, is launched.

St. Thomas More College welcomes its eleventh president, Terrence Downey

www.stmcollege.ca

For additional information, see *Heartwood: A History of St. Thomas More College and Newman Centre at the University of Saskatchewan*, by Margaret Sanche. Muenster, SK: St. Peter's Press, 1986.

rich history

100 YEARS OF HUSKIE ATHLETICS

In Huskie Athletics, we're celebrating 100 years in our 2011-12 season. We're proud of our Huskie legacy—and with good reason! With 95 Canada West Championships and 25 Canadian Interuniversity Sport Championships under our belt, Huskie Athletics is one of the most dominant programs in the country.

Swimming, diving and water polo appear as varsity sports

First Huskie mascot arrives on a campus—a real husky dog

Just four years into the program, cross country wins first CIS Championship for Huskie Athletics under the direction of Lyle Sanderson

Pat Jackson named U of S athletic director, becoming the first woman to fill the job at a major North American university

Men's hockey wins lone University Cup

Term "Huskiette" dropped in reference to women's teams

Host first-ever Vanier Cup outside of Ontario

1911

During its first year, Huskie Athletics competes in hockey, soccer, football, track and field, tennis and fencing

1916

1914

Basketball begins. Games are played in the "Gym" in the basement of the College Building

1946

1919

Joe Griffiths becomes first Athletic Director. Griffiths Stadium opens in 1936.

1949

Women's volleyball and curling begin as varsity sports. Men's volleyball won't debut until 1976.

1968

1970

Track and field wins first of 12 CIS Championships.

1973

1979

Men's & women's volleyball win first CIS Championships; Women win 3 straight, while men have won 3 since.

1983

1990

Football wins first of three Vanier Cups; Win again in 1996 and 1998

1992

2005

Physical Activity Complex (PAC) opens

2006

2010

Men's basketball wins Huskie Athletics' most recent CIS Championship

UNIVERSITY OF SASKATCHEWAN FALL CONVOCATION

page 47

Undergraduate degrees, graduate degrees, diplomas and certificates will be awarded for Agriculture and Bioresources, Education, Engineering, Kinesiology, Law, Medicine, Nursing, Pharmacy and Nutrition, School of Physical Therapy and Veterinary Medicine

HONORARY DOCTOR OF LETTERS

DESMOND MORTON

Desmond Morton is among Canada's most distinguished historians. As a scholar, teacher, author and media expert, he has dedicated a career to inspiring in Canadians knowledge of their own history and an engagement with that history as the fabric of the national identity.

Born in Calgary, Dr. Morton attended Collège militaire royal de St.-Jean, Royal Military College of Canada, Oxford University as a Rhodes Scholar, and the London School of Economics. As well as academic appointments in the University of Toronto and McGill University, where he is Hiram Mills Professor of History Emeritus, and still teaches, he was for eight years Principal of Erindale College, University of Toronto, and was the founding Director of the McGill Institute for the Study of Canada.

Dr. Morton is the author of more than 40 books and innumerable other publications. He is regularly asked to comment on current affairs and does so in an incisive, pithy manner. His books address professional and general audiences alike. Written in direct and energetic prose, they are richly documented with experiences of people of all conditions—the product of probing

archival research. In theme they range from *Working People*, a social and political history of the Canadian labour movement, to many books in Canadian military history. As a military historian, Dr. Morton presents war not only as it is waged on the battlefield, as in *When your Number's Up*, which recounts how the relentless and random dynamics of war decided the fates of soldiers in the Great War. He also explores diverse political, economic and social dimensions of the war. *Silent Battle*, for example, has for its theme the ordeals of Canadian prisoners of war; *Fight or Pay* reveals the struggles and desolation of the families soldiers left behind.

A Fellow of the Royal Society of Canada and an Officer of the Order of Canada, Dr. Morton is the recipient of the 2010 Pierre Berton Award, which honours those who “have brought Canadian history to a wider audience.”

EARNED DOCTOR OF LETTERS

PETER LI

Peter S. Li is Professor of Sociology at the University of Saskatchewan. He received a B.A. from the University of Hawaii in 1971 and was inducted to Phi Beta Kappa. He holds a M.A. (1972) and a Ph.D. (1975) from Northwestern University. He joined the University of Saskatchewan in 1975.

Dr. Li's research areas are race and ethnicity, immigration, Chinese Canadians, and multiculturalism. He has published 10 books, including *The Chinese in Canada* (1988, 1998), *The Making of Post-War Canada* (1996) and *Destination Canada* (2003). In addition, he

has published 50 papers in refereed journals, 32 chapters in books, and three entries in encyclopedia.

Dr. Li has served in many professional associations and boards. He was president of the Canadian Sociology Association (2004-5), and editor of the *Journal of International Migration and Integration* (2005-2009). He was a founding member of the Prairie Metropolis Centre, and served as the leader of the centre's economic domain for more than 10 years. He has also served as the vice-president of the International Society for the Study of Chinese Overseas, and an associate editor/board member of many academic journals.

During the 1994 national consultation on immigration, Dr. Li was appointed by the minister of immigration as co-chair of a national expert panel on immigrant integration. In 2005, he was appointed by the Governor in Council, Canada, as a director of the International Centre for Human Rights and Democratic Development (2005-2008). In 2009, he was appointed to the National Statistics Council.

Dr. Li has received many external research grants, and has trained many fine graduate students and visiting scholars in his research programs. In recent years, he has been active

in promoting academic exchanges between Canada and China.

Dr. Li is the recipient of several awards. In 2001, he was given the "Living in Harmony" Recognition Award by the City of Saskatoon, Race Relations Committee, in recognition of a distinguished record of research, publication, and policy-related work on race and ethnic relations, immigration studies and racism in Canada. In 2002, he received the "Outstanding Contribution Award" from the Canadian Sociology Association for his contribution to sociology in Canada. In 2009, he was inducted to the Royal Society of Canada.

Dr. Li's academic achievement was highlighted in the 2009 citation of the Royal Society of Canada: "Peter Li is leading sociologist whose work on the Chinese in Canada, immigration, and race relations has greatly influenced academic thinking and policy development. His prolific writings on the Chinese in Canada have produced a new perspective in studying racial minorities and a body of knowledge that became the basis of the Chinese Head Tax Redress. His influential writings on immigration explain many aspects of immigrant life, including self-employment, entrepreneurship, economic integration and racial inequality."

DISTINGUISHED GRADUATE SUPERVISOR AWARD

ROBERT CLARK

Robert G. Clark joined the University of Saskatchewan as an adjunct professor in the Department of Biology in 1987. Despite his demanding job as a research scientist with Environment Canada, he excels in his role as a supervisor to both graduate and undergraduate students. Dr. Clark's record as a supervisor includes 25 past graduate students (18 M.Sc., seven Ph.D.) and five postdoctoral fellows, as well as three M.Sc. and five Ph.D. students who are currently working under his guidance. Dr.

Clark also identifies promising undergraduate students and supervises their independent research projects; most of these continue on to undertake graduate studies in ecology. But Dr. Clark's legacy as a supervisor is reflected in the quality of his supervision skills rather than the quantity of students he has graduated. Indeed, all of the 35 mentees contacted were enthusiastically supportive of the nomination of Dr. Clark for the Distinguished Graduate Supervisor Award.

Dr. Clark motivates his students to succeed by leading by example. By asking interesting scientific questions, using novel research methods, working long hours and being highly productive himself, Dr. Clark motivates his students to do the same. He encourages students to investigate topics they are passionate about and guides them to discover answers to their own questions. Dr. Clark believes that part of his job is to help his graduate students find interesting and fulfilling employment after completing their studies, and his former students have gone on to productive careers in a wide variety of organizations (academic, government, industry and non-government). Furthermore, after leaving Dr. Clark's lab, many continue

to contribute to science by publishing in peer-reviewed journals (at least 200 papers by former students have been published).

Dr. Clark's reputation as an outstanding supervisor and mentor extends throughout the ecological research community. He has an open-door policy which gives students the opportunity to maintain momentum and produce high-quality work. Dr. Clark also integrates his students into his family circle; they are frequently invited to gatherings at his home and former students often stay with the Clark family when they return to Saskatoon to visit. Not only does he guide his students towards academic and professional achievements, he stresses the importance of finding a healthy life-work balance.

Dr. Clark's passion for science and life is contagious. He has a strong positive influence on the lives of his students, pushing them to perform at the highest level and encouraging them to achieve their professional and personal goals. In the words of one of Dr. Clark's former students "he is the best supervisor one could hope for: supportive, caring, thoughtful, driven, enthusiastic, and an excellent teacher and research scientist."

J.W. GEORGE IVANY INTERNATIONALIZATION AWARD

LI ZONG

Li Zong joined the University of Saskatchewan as a faculty member of the Department of Sociology in 1993. He has established himself as a recognized scholar in comparative studies of China and Canada, and has been active in collaborative research initiatives related to

immigration, integration, ethnic relations, and China studies. His contributions to internationalization have spanned over two decades, covering many areas of university and community life. Dr. Zong has been instrumental in developing academic linkages between the University of Saskatchewan and many universities in China with important tangible outcomes, including innovative dual B.A. and M.A. degree programs in sociology, training programs of school principals from China at the College of Education, international conferences on knowledge transfer and policy development in China and Canada, the establishment of a Confucius Institute at the University of Saskatchewan, and collaborative research projects and joint publications with Chinese scholars in China. Dr. Zong has brought to the University of Saskatchewan his expert understanding of contemporary China and contributed to the success of many internationalization initiatives. Recently, he has been appointed by the

university as a China advisor to provide advice to the university regarding building exchanges and programs with universities in China. Dr. Zong is an affiliated researcher of the Prairie Metropolis Centre in Canada. He is also a research fellow of the institute for empirical social science research at Xi'an Jiaotong University and an adjunct professor for several universities in China.

Dr. Zong's dedication to the university's internationalization has been well summarized by the former head of the Department of Sociology, Professor Terry Wotherspoon: "Li Zong's accomplishments are highly impressive, representing the leading edge of what promises to serve as a lasting legacy of connections and developments in relation to China and Chinese scholarship. His contributions to internationalization are truly impressive, representing fully the level of accomplishment that the J. W. George Ivany Internationalization Award is intended to recognize."

MASTER TEACHER AWARD

KEN VAN REES

Dr. Ken Van Rees is a professor in the Department of Soil Science and is an outstanding teacher who is highly valued by his students and colleagues. The core of Dr. Van Rees' approach to teaching is experiential teaching and learning. He accomplishes this through his field courses such as Soils and Boreal Forest Landscapes, field trips in Forest Soils, hands-on experiences in his graduate course Soil Plant Relations, and his highly innovative field/studio course, Ecosystems and Art.

The field experiences that Dr. Van Rees provides in his courses are extraordinarily popular with his students – they inculcate in students a sense of the tremendous enjoyment that field research can bring, as well as a deeper sense of the travails that are also a part of any field experience. The creation of a positive field experience does not occur by chance, and Dr. Van Rees spends countless hours planning trips, revising materials, and visiting field sites to put in place the logistics for a successful learning experience.

Dr. Van Rees personifies the concept of a Master teacher. His superior teaching is well known by students and colleagues; his teaching is grounded in his own research; and he excels in proficient and innovative pedagogy. He has contributed to the teaching activities and responsibilities of the university as a whole, especially through his ceaseless efforts to ensure that the Emma Lake Kenderdine Campus continues to serve its key role in experiential education.

Dr. Van Rees is truly dedicated to his students and to the craft of innovative teaching. There is ample evidence that Dr. Van Rees has achieved a very high standard of teaching. In 2001, 2008,

2009, and 2010 he was nominated for the Agriculture Students Association Professor of the Year Award. In 2006 he received a USSU Teaching Award of Excellence. In 2008, he received the North American Colleges and Teachers of Agriculture Teaching Award. More recently, he received the Provost's College Award for Outstanding Teacher in 2010 and in 2011, the Provost's Award for Outstanding Innovation in Learning.

Additional evidence that Dr. Van Rees has achieved a very high standard of teaching can be found in consistently positive student evaluations. Students have reported "This is the best class of my entire educational career!" and "Most amazing course I have ever taken." One of his students wrote "Prof. Van Rees made every class enjoyable by showing specific real-life examples and asking many questions so that students were engaged and could relate to everything he taught us. I always felt comfortable asking questions in his class and he was always approachable and encouraging in his answers."

Dr. Van Rees is truly deserving of the Master Teacher Award.

AWARD FOR DISTINCTION IN OUTREACH AND ENGAGEMENT

NOLA BUHR

Dr. Nola Buhr's outstanding outreach and engagement achievements are notable for their impact on governance structures, organizational accountability, and the well-being of communities.

Dr. Buhr has been a professor of accounting in the N. Murray Edwards School of Business since 2000 and has held the PotashCorp Enhancement Chair for Saskatchewan Enterprise since January 2010. Dr. Buhr is a chartered accountant who has established herself as professional who can make a difference. Last year, she facilitated an agreement between the Edwards School

of Business and the Aboriginal Financial Officers Association of Canada to enhance career advancement for Aboriginal business professionals by giving Aboriginal Financial Management diploma holders advanced standing towards the Bachelor of Commerce degree program. Dean Daphne Taras said that Dr. Buhr "was the initiator of the agreement, its constant champion, and she gave most generously of her time and creativity to see this agreement come to fruition." Dr. Buhr is known nationally for her efforts in the practice of accounting by First Nations governments. Working with a task force, her research led to the publication of the Canadian Institute of Chartered Accountants report entitled *Financial Reporting by First Nations*. In addition, Dr. Buhr has delivered workshops and presentations on public sector accounting to more than 800 First Nations financial managers. Her involvement in public sector accounting extends to all levels of government. As a volunteer member and chair of the Public Sector Accounting Board, she has played a key role in setting accounting standards for all governments in Canada.

Dr. Buhr currently provides leadership on audit committees for the federal and provincial governments. Federally, she serves the Department of Aboriginal Affairs and

Northern Development Canada, as well as the Department of Canadian Heritage. One nominator spoke of how "her work with members of Parliament, First Nations, and very senior government officials demonstrates her commitment to serving the public interest." Provincially, Dr. Buhr serves as the chair of the Audit Committee of the Province of Saskatchewan. In this role she assisted with the recent selection of the provincial auditor. Locally, Dr. Buhr has worked with the International Centre for Northern Governance and Development on campus to perform an assessment to determine training needs of the financial administrators in 24 municipal communities in northern Saskatchewan. She has expertly applied her accounting knowledge to the betterment of communities and developed substantive partnerships with organizations, provincially and nationally. And it is her collaborative approach that has engaged individuals and groups beyond the border of our campus. People describe her as invaluable, exemplary, and passionate. Others speak about her character and integrity. Please join me in recognizing Dr. Buhr as one of our premier ambassadors and a very deserving recipient of the University of Saskatchewan award for distinction in outreach and engagement.

PRESIDENT'S SERVICE AWARD

BRYAN BILOKRELI

Infinite patience, diplomacy and inventiveness are admirable qualities in any employee, but they are exemplified by Bryan Bilokreli, who has what some describe as one of the most challenging jobs at the University of Saskatchewan—oversight of the institution's space and capital assets.

As director of institutional capital planning in the office of Institutional Planning and Assessment, Mr. Bilokreli is responsible for ensuring everyone has appropriate space to work, study and learn, and that space is

used efficiently and effectively in support of the university's goals and priorities. That means juggling many projects at once, often in the face of conflicting and contradictory priorities and deadlines. Considered the 'go to' person when it comes to capital issues at the University of Saskatchewan, he is admired as much for his tact and integrity as he is for his encyclopedic knowledge of every hallway, classroom, partition, nook and cranny on campus.

Mr. Bilokreli joined the University of Saskatchewan in 1976 after completing a B.A. in geography and history, doing his graduate work and serving as a teaching assistant in the Department of Geography. His first position was assistant space inventory officer in what was called the Department of Planning and Engineering, Buildings and Grounds. He moved from there to the Space Administration Office and has continued to progress through the organization to his current post as part of the Provost's Office.

Among his first tasks in that office was to inventory and evaluate the university's space needs on a strategic basis. One of his most significant contributions in this area was the

development of a submission and approval process that helps both project sponsors and administrative leaders track various projects and ensures everyone receives information in a timely manner. Mr. Bilokreli is also credited with having had an important role in designing the university's first multi-year capital plan, its annual capital plan and a strategic campus space plan that will provide a time-sensitive model for determining space allocations.

Considering the strong views often associated with space issues, it is fair to describe Mr. Bilokreli's job as demanding, but not so demanding that it takes time away from the other passions in his life—his wife, daughters and family, and recreational sports including curling, hockey and golf.

Mr. Bilokreli's nominators agree that he meets all criteria for the President's Service Award. In addition to enhancing the work environment by providing extraordinary service to the university, he has been, and continues to be, an inspiration to others. Over his 35-year career, Mr. Bilokreli has made significant contributions to the University of Saskatchewan, each marked with professionalism and humility.

NEW RESEARCHER AWARD

DWIGHT NEWMAN

The New Researcher Award recognizes a faculty member's contribution to scholarship through the creation, expansion and critique of knowledge. Dwight Newman in the College of Law is the 2011 recipient.

Dr. Newman is quickly becoming known among his colleagues in Canada and internationally for his exceptional work in the area of collective rights, in particular as they pertain to Aboriginal communities.

One of Dr. Newman's most notable achievements in the short time since earning

his Doctor of Philosophy from Oxford University in 2005 is the publication of his book *The Duty to Consult: New Relationships with Aboriginal Peoples*. The book provides several theories relating to the duty to consult concept and, importantly, reviews how this concept has been applied by the lower courts, governments, businesses and indigenous organizations. His work in this area has been cited in judgments handed down by the Supreme Court of Canada and is widely used as a reference for lawyers and judges adjudicating Aboriginal rights claims. Dr. Newman's research program is currently focusing on how international law is applied to the inherent rights of Indigenous Peoples in the wake of the 2007 United Nations Declaration on the Rights of Indigenous Peoples. Looking at examples from around the world, he hopes to determine what government action on issues such as the duty to consult imply for the content of international law. He will also probe how international law can more effectively respond to the rights of Indigenous Peoples as understood by Indigenous Peoples themselves.

Dr. Newman's productivity as a scholar is exceptional. Over the past six years he has authored 25 peer-reviewed articles in

well-respected national and international legal journals, 11 book chapters and authored or co-authored four books—most recently *Community and Collective Rights: A Theoretical Framework for Rights Held by Groups*, released in July 2011. He has been successfully funded by the Social Sciences and Humanities Research Council of Canada (SSHRC) since 2007. Much of his success has been achieved while also taking on the role of associate dean academic for the College of Law from July 2006 to June 2009.

Dr. Newman received numerous accolades as a student and continues to be recognized by his peers now as a full professor and prolific researcher. Among his many honours, he was awarded the Law Society of Saskatchewan Gold Medal upon graduating with his LL.B from the University of Saskatchewan in 1999. He was awarded a Rhodes Scholarship in 2001 and in 2004 was named the SSHRC William E. Taylor Fellow, given annually to the most outstanding SSHRC-funded doctoral student. Recently, his book *Duty to Consult* won a 2010 Saskatchewan Book Award. Dr. Newman joined the U of S College of Law in 2005.

PRESIDENT'S MEDAL

This medal is awarded to the undergraduate student with the highest academic standing at Fall Convocation.

ANISH STEVEN MANN

Anish Mann was born and raised in Saskatchewan. He attended Campbell Collegiate in Regina and graduated from the International Baccalaureate (IB) Program in June 2008.

Anish entered the College of Arts and Science in September 2008 to pursue a B.Sc. degree and graduates today with a B.Sc. Three-year degree with a major in Biochemistry with Great Distinction and a minor in Mathematics. He has been the recipient of numerous awards during his academic career, including the prestigious University of

Saskatchewan Chancellors' Scholarship (Katharine Quine Scholarship) and the University of Saskatchewan Undergraduate Scholarship.

Anish has been actively involved in numerous volunteer and community services, such as the Student Wellness Initiative Towards Community Health (SWITCH) and the Patient and Family Care Experience Program. As a member of the Greystone Scholars Society, Anish took time to give back to the community by volunteering as a tutor at local schools. Anish also helped guests travel

around the world in three days as the Master of Ceremonies and performer at the Mosaic Festival. His extracurricular activities include competitive tennis and soccer, as well as piano through the Royal Conservatory of Music.

Anish is currently registered in the College of Medicine at the University of Saskatchewan and hopes to enter an academic career involving a combination of clinical medicine, teaching, and research.

CEREMONY I

SATURDAY, OCTOBER 22, 2011

9:00 A.M.

Graduates of

Arts and Science

Edwards School of Business

Johnson-Shoyama Graduate School of Public Policy

School of Environment and Sustainability

Undergraduate degrees, graduate degrees, diplomas and certificates for the graduates of
Arts and Science, Edwards School of Business, Johnson-Shoyama Graduate School of Public Policy
and School of Environment and Sustainability

October 22, 2011 • 9:00 a.m.
Chancellor Vera Pezer, B.A., M.A., Ph.D., presiding

PRE-ADDRESS

University of Saskatchewan Alumni Association

PROCESSION

Graduands in the order in which degrees are to be conferred; Faculty; Board of Governors; Senate; Guests of Honour;
The President; The Chancellor

WELCOME

Lea Pennock, University Secretary

O CANADA

Jeremiah Scott

INVOCATION

Reverend Paul Sartison, University Chaplain

INTRODUCTIONS

Lea Pennock, University Secretary

CONFERRING OF
HONORARY DOCTOR OF LETTERS DEGREE

Desmond Morton
Presented by Bill Waiser

CONVOCATION ADDRESS

Desmond Morton

CONFERRING OF
EARNED DOCTOR OF LETTERS DEGREE

Peter S. Li
Presented by Lawrence Martz

PRESIDENT'S MESSAGE TO THE
GRADUANDS

Peter MacKinnon

MUSICAL INTERLUDE

Lyric Essay by Donald Coakley
The University Wind Orchestra conducted by Darrin Oehlerking

CONFERRING OF DEGREES

PETITION FOR ADMISSION

Lea Pennock, University Secretary

PRESENTATION OF GRADUANDS TO THE
CHANCELLOR

Arts and Science presented by Dean Peter Stoicheff,
Associate Dean of Students Gordon DesBrisay, Vice Dean of Science Peta Bonham-Smith, Vice Dean of Social Science
Harley Dickinson
Edwards School of Business presented by Dean Daphne Taras
Public Policy presented by Executive Director Michael Atkinson
Environment and Sustainability presented by Executive Director Karsten Liber
Doctor of Philosophy presented by Dean Lawrence Martz

ADMISSION TO DEGREES IN ABSENTIA

Vera Pezer, Chancellor

PRESENTATION OF AWARDS TO THE
MOST DISTINGUISHED GRADUATES

Dean's Medal in Arts and Science presented to Chester Arthur Thai
University Medal in Social Sciences presented to Chester Arthur Thai
University Medal in Sciences presented to Branislav Zdravkovic
University Medal in Fine Arts presented to Derek Clifford Sandbeck
Rose Litman Medal in Humanities presented to Justin David Fisher
Fall Convocation Three-year Medal presented to Anish Steven Mann
The Goodspeed Award presented to Lindsay May Sanderson
President's Medal presented to Anish Steven Mann

PRESENTATION OF AWARDS TO FACULTY AND
STAFF

Distinguished Graduate Supervisor Award presented to Robert Clark
J.W. George Ivany Internationalization Award presented to Li Zong
Award for Distinction in Outreach and Engagement presented to Nola Buhr
President's Service Award presented to Bryan Bilokreli

MESSAGE FROM THE ALUMNI
ASSOCIATION

Clavet

Psychology – Thesis: The Social Psychological Dimensions of Immigrant Entrepreneurship

Kelly Marie Sayers

Saskatoon

Archaeology – Thesis: Architectural Transition in the Pottery Neolithic

Bradley Michael Schiele

Meadow Lake

Archaeology – Thesis: Reconstructing Paleoenvironments Using Variations In The Isotopic Composition of Bison Tooth Enamel Carbonate From Saskatchewan Archaeological Sites

Tariq Mohammad Shahriar

Saskatoon

Economics – Project: Enforcing Compliance in Emissions Trading When Transaction Costs are Present

Klaudia Sieminska

Saskatoon

Economics – Thesis: Diversification and Real Exchange Rate Hedging in Equity Holdings

Jeremy Wayne Skrzypek

United States of America

Philosophy – Thesis: On Defending a Hylomorphic Account of Personal Identity

Oxana Solovyeva

Russia

Sociology – Thesis: The Worth of Immigrants' Educational Credentials in the Canadian Labour Market

Cara Julie-Anne Spence

Warman

Sociology – Thesis: Collaborative Research Partnerships: Quality of Life in Saskatoon

Karin Sue Tate

Saskatoon

History – Thesis: The Deification of Imperial Women: Second-Century Contexts

Lee Baergen Todd

Saskatoon

Political Studies – Thesis: Non-Governmental Organizations in Mediation: The Case of Aceh

Wihan van Heerde

South Africa

Economics – Project: Investigating Alternative Explanations of the Negative Relationship Between Obesity on Income and Employment: Evidence from the CCHS

Petra Vychodilová

Czech Republic

Political Studies – Thesis: Recognition of Foreign Medical Credentials in Canada and the EU

Ying Zhang

Burnaby, British Columbia

Psychology – Thesis: Prenatal PolyI:C Induced Schizophrenia-like Cognitive Inflexibilities in the Male, but not Female, Rat Adult Offspring

Dan Zhao

People's Republic of China

Geography – Thesis: Life Expectancy as a Development Indicator: Liaoning Province, China, 2000

MASTER OF FINE ARTS

Kevin Donald Jamieson Bishop

Pickering, Ontario

Studio Art – Thesis: Wood

Olga Zahariadi Dermendji

Windsor, Ontario

Studio Art – Thesis: Passage

Levi Matthew Nicholat

Saskatoon

Studio Art – Thesis: That is not it at all

MASTER OF SCIENCE

Bassey Ekpenyong Bassey

Nigeria

Physics and Engineering Physics – Thesis: Experimental Verification of Buildup Region Dose Calculation for a Commercial Treatment Planning System

Paul Francis Bazylewski

Pike Lake

Physics and Engineering Physics – Thesis: Electronic and Thin Film Stacking Structure of Organic Semiconductors

Adrienne Louise Contasti

Burlington, Ontario

Biology – Thesis: Structure in Vital Rates, Internal Source-sink Dynamics, and their Influence on Current Population Expansion for the Feral Horses (Equus ferus caballus) of Sable Island, Nova Scotia

Meng Dong

People's Republic of China

Computer Science – Thesis: Texture Analysis of Corpora Lutea in Ultrasonographic Ovarian Images Using Genetic Programming and Rotation Invariant Local Binary Patterns

Xiaonuo Gantan

People's Republic of China

Computer Science – Thesis: Empirical Evaluation of Soft Arc Consistency Algorithms for Solving Constraint Optimization Problems

Daria Korneeve

Russia

Mathematics – Thesis: Numerical Simulation of Compressible Gas Flow Coupled to Heat Conduction in Two Space Dimensions.

Andrew Paul Kroshko

Calgary, Alberta

Computer Science – Thesis: Integrating-factor-based 2-additive Runge-Kutta Methods for Advection-reaction-diffusion Equations

Ian James Livingston

Saskatoon

Computer Science – Thesis: The Critical Effect: Evaluating the Effects and Use of Video Game Reviews

Sarah Heather Lowe

Saskatoon

Geography – Thesis: Spatial Habitat Modeling for a Threatened Plant in a Prairie Sand Dune Landscape

Andrey Olinov

Russia

Mathematics – Thesis: Symbolic Software for Symmetry Reduction and Computation of Invariant Solutions of Differential Equations.

Dawn Yvonne Pratt

Regina

Chemistry – Thesis: Sorption of Arsenic Species Using Chitosan Based Biopolymer Sorbent Materials

ARTS AND SCIENCE, EDWARDS SCHOOL OF BUSINESS, JOHNSON-SHOYAMA GRADUATE SCHOOL
OF PUBLIC POLICY AND SCHOOL OF ENVIRONMENT AND SUSTAINABILITY

Degrees, Diplomas and Certificates

Thomas Schöne

Germany

Computer Science – Thesis: Step-Optimized Particle Swarm Optimization

Mohsen Soltanifar

Iran

Mathematics – Thesis: Some Results on the Distributions of Operator-Valued Semicircular Random Variables

Craig Daniel Stewart Thompson

Saskatoon

Computer Science – Thesis: Metareasoning about Propagators for Constraint Satisfaction

Jayne Nicole Viglas

Saskatoon

Biology – Thesis: Age Effects on Seed Productivity in Northern Black Spruce Forests (*Picea mariana*)

Jin Zhang

People's Republic of China

Computer Science – Thesis: A System Simulation Model for Type 2 Diabetes in the Saskatoon Health Region

Grande Prairie, Alberta

Randi Leigh Hannon
Kindersley

Denille Anne Heron
Cabri

Mark Benson Hill
Kingsville, Ontario

Torylee Robyn Hislop
Vancouver, British Columbia

Jean Marie Jen
Delta, British Columbia

Angela Sung-Eun Ko
Calgary, Alberta

Karmen Ko
Edmonton, Alberta

Michelle Brianna Kraft
Esterhazy

Christopher Harris Kwan
Vancouver, British Columbia

Solange Lansiquot
Vancouver, British Columbia

Paul Colin Lepage
Saskatoon

Alyssa Nicole Lochbaum
Delta, British Columbia

Matthew Dwayne Lockert
Regina

Saba Shahid Malik
Calgary, Alberta

Sarah Michelle Malo
Wolseley

Jessica L Mann
Saskatoon

Jeffrey John Martens
Edmonton, Alberta

Nadim Merali
Edmonton, Alberta

Lesley Rae Mickla
Vancouver, British Columbia

Meghan Ashley Misquita
Calgary, Alberta

Joseph Daniel Muzzin
Vancouver, British Columbia

Stephanie Lynn Nagle
Prince Albert

Zahra Nanji
Calgary, Alberta

Robert Jonathan Neufeld
Calgary, Alberta

Janelle Ng
Calgary, Alberta

Kate Isobel Norris
Vancouver, British Columbia

Errol David Osecki
Porcupine Plain

Jill Bronwyn Owen
Victoria, British Columbia

Adrian James Pape
Vancouver, British Columbia

Tricia Ann Paquette
Rosetown

Nick Jens Bolstad Purich
Saskatoon

David Robert Emrys Quance
Winnipeg, Manitoba

Kristi Jade Ronald
Saskatoon

Cameron David Rustad
Calgary, Alberta

Robin Sandhawalia
Surrey, British Columbia

Gaith Fuad Sarhan
Vancouver, British Columbia

Tiffany Rose Schlosser
Viscount

Christine Helen Seller
Devon, Alberta

Shashi Anand Selvaraj
Coquitlam, British Columbia

Hafeez A Shariff
Vancouver, British Columbia

Ishanjit Singh
Vancouver, British Columbia

Alan Michael Barry Sklapsky
Martensville

Kamila Strzelecka
Calgary, Alberta

Ryan Samuel Sutherland
Saskatoon

Kristopher Thomas Troppmann
Edmonton, Alberta

Braden Joseph Turnquist
Saskatoon

Ka Wai Wan
Saskatoon

Selina Wong
Vancouver, British Columbia

Stephen Yong
Saskatoon

Barrett Wade Zelinski
Saskatoon

Bo Zhang
Vancouver, British Columbia

MASTER OF SCIENCE

Nimita Farzeen Azam
Bangladesh

Finance – Thesis: Credit Derivatives and Loan Pricing

Garrett Cassidy Meier
Calgary, Alberta

Finance – Thesis: Noninterest Income: A Diversification Story or a Risky Proposition?

Weiting Zhou
People's Republic of China

Finance – Thesis: Large Shareholders and Bidder Announcement Returns: Evidence from Western Europe and East Asia

Xing Zhou
People's Republic of China

Finance – Thesis: Interactions Between Family Ownership and Racial Effects in Small Business Debt Financing: Evidence from the U.S.

JOHNSON-SHOYAMA
GRADUATE SCHOOL
OF PUBLIC POLICY

MASTER OF
INTERNATIONAL TRADE

Sean Michael Irwin
Dauphin, Manitoba

MASTER OF PUBLIC
ADMINISTRATION

Nicolas Dunnery Best
Victoria, British Columbia

Andrea Dale Gibson
Saskatoon

ARTS AND SCIENCE, EDWARDS SCHOOL OF BUSINESS, JOHNSON-SHOYAMA GRADUATE SCHOOL
OF PUBLIC POLICY AND SCHOOL OF ENVIRONMENT AND SUSTAINABILITY

Degrees, Diplomas and Certificates

Brandon Douglas Grant
Florenceville, New Brunswick

Stephanie Lynn Grant
Maplehurst, New Brunswick

Michal Eugeniusz Janus
Poland

Amy Renee Karakochuk
Saskatoon

Kacey Jean Keene
Swift Current

Kellianne Rose Malko
Saskatoon

Manas Mambetsadykov
Krygyzstan

Lan Wang
People's Republic of China

Yiming Wei
People's Republic of China

MASTER OF PUBLIC POLICY

Paul Kostas Bretscher
Saskatoon

Public Policy – Thesis: Project Fiasco: An Analysis of Ontario's Electronic Health Record Project

Ata-Ul Munim
Brampton, Ontario

Public Policy – Thesis: An Exploration of an Institutional and Behavioural Analytic Framework for Technology Transfer and Commercialization Partnerships

SCHOOL OF
ENVIRONMENT AND
SUSTAINABILITY

MASTER OF
ENVIRONMENT AND
SUSTAINABILITY

Jania Said Chilima
Tanzania

Environment and Sustainability – Thesis: Evaluating Institutional Arrangements to Support Watershed-Scale Cumulative Effects Assessment in the Grand River Watershed, Canada

MASTER OF SUSTAINABLE
ENVIRONMENTAL
MANAGEMENT

Kingsley Kwadwo Ahey
Ghana

Environment and Sustainability – Project: Evaluation of Cumulative Effects Assessment Practices for Petroleum and Natural Gas Well-Site Developments in Southwestern Saskatchewan.

Cynthia Cristina Avila
Sudbury, Ontario

Environment and Sustainability – Project: Characterizing Patterns of Human-Polar Bear Interaction in Wapusk National Park

Daniel Jonathan Brent
Toronto, Ontario

Environment and Sustainability – Project: Congestion and Headache: Prescriptions for Gridlock

Charu Gupta
Delhi

Environment and Sustainability – Project: From Seeds to Salads: Evaluating the Impact of Garden Based Learning through Little Green Thumbs

Elisa Chung-Ming Hsieh
Port Coquitlam, British Columbia

Environment and Sustainability – Project: Shellfish Aquaculture in Baynes Sound: Capability, Issues and Strategies

Brittany Taylor Morgan
Nanaimo, British Columbia

Environment and Sustainability – Project: Exploring Watershed Governance: Opportunities for the Saskatchewan River Basin

Sarah Liisa Turkeli
Odessa

Environment and Sustainability – Project: Greenscapades Schoolyard Learning Program: The future of environmental expertise and local food sovereignty?

Matthew Thomas Aloysius Wolsfeld
Saskatoon

Environment and Sustainability – Project: Valuing Urban Wetlands: A Municipal Policy Analysis

Stephanie Victoria Woods
Waterloo, Ontario

Environment and Sustainability – Project: Human-Polar Bear Interactions in Wapusk National Park and Greater Wapusk Ecosystem

Jesse Roen Woodward
Nelson, British Columbia

Environment and Sustainability – Project: Preventative Measures: To What Extent was the Evolution of Environmental Thought in America a Sociocultural Expression of the Precautionary Principle?

DOCTOR OF PHILOSOPHY

Robert Norman Armstrong
Saskatoon

Geography – Thesis: Spatial Variability of Actual Evaporation in a Prairie Landscape

Ashley Anne Barlow
Calgary, Alberta

Psychology – Thesis: News Media Constructions of Male-Perpetrated Intimate Partner Homicide

Rebecca Lynn Boehm
Saskatoon

Psychology – Thesis: Attitudes Toward Professional Women with Children: Development and Validation of the Career Mothers Inventory (CMI)

Carissa Deanne Brown
Thunder Bay, Ontario

Biology – Thesis: Ecological Responses to Altered Fire Frequency in Treeline Forests of the North Yukon, Canada

Shaun Jason Dergousoff
Saskatoon

Biology – Thesis: Comparison of the Bacteria Within Ticks from Allopatric and Sympatric Populations of *Dermacentor andersoni* and *Dermacentor variabilis* near their Northern Distributional Limits in Canada

Dimitrios Diamantopoulos
Regina

Interdisciplinary Graduate Studies – Thesis: Globalization, Social Innovation, and Co-operative Development: A Comparative Analysis of Québec and Saskatchewan, 1980-2010.

Scott Daniel Dunbar
North Vancouver, British Columbia

Interdisciplinary Graduate Studies – Thesis: Classical Hindu Views of 'Righteous War' (*Dharma Yudha*) in light of Michael Walzer's Just War Theory

ARTS AND SCIENCE, EDWARDS SCHOOL OF BUSINESS, JOHNSON-SHOYAMA GRADUATE SCHOOL
OF PUBLIC POLICY AND SCHOOL OF ENVIRONMENT AND SUSTAINABILITY

Degrees, Diplomas and Certificates

Dmytro Dyachuk

Ukraine

Computer Science – Thesis: Ensuring Service Level Agreements for Composite Services by Means of Request Scheduling

Amira Mohammed El-Ganiny

Egypt

Biology – Thesis: The *Aspergillus nidulans* Galf Biosynthesis Pathway is a Promising Drug Target

Carrie Lynn Esopenko

Innisfail, Alberta

Psychology – Thesis: A Cognitive Neuroscience Examination of Embodied Cognition

Tara Nandita Gokavi

Saskatoon

Psychology – Thesis: The Transition to Post-Secondary Education for Canadian Aboriginal and Non-Aboriginal Students: A Focus on Adjustment, Fit, and Anticipated Persistence

John Harley Gow

Saskatoon

History – Thesis: Persistent Mirage: How the “Great American Desert” Buries Great Plains Indian Environmental History

Stuart Ralph Leard

Saskatoon

Sociology – Thesis: Negotiating Modernity: Habermas and the International Township of Auroville, India

Yan Li

People’s Republic of China

Biology – Thesis: The Role of FtsA in Cell Division in *Neisseria gonorrhoeae*

Vivek Jayavalli Padmanabhan

India

Chemistry – Thesis: Electrochemical Evaluation of Surfactants Relevant to Ligand Stabilized Nanoparticles

Kate Pan

Toronto, Ontario

Psychology – Thesis: The Lying Game: How Often and to Whom Do Individuals With Psychopathic Tendencies Lie?

James Fredrick Reichert

Saskatoon

Psychology – Thesis: Differential Learning and Use of Geometric Angles by Pigeons and Humans

Raghavendra Prasad Savada

India

Biology – Thesis: Characterization of Regulation of Expression and Nuclear/ Nucleolar Localization of Arabidopsis Ribosomal Proteins

William Joseph Trainor

Saint John, New Brunswick

Psychology – Thesis: The Development and Inhibition of Physical Aggression in Early Childhood: Measurement and Associations

David Michael Vickers

Prince Albert

Interdisciplinary Graduate Studies – Thesis: Rebounding Case Notifications of Chlamydia: An Epidemiological Game of Clue?

Eric Jacob Vander Wal

Thunder Bay, Ontario

Biology – Thesis: Sex, Friends, and Disease: Social Ecology of Elk (*Cervus elaphus*) with Implications for Pathogen Transmission

Kai Wang

People’s Republic of China

Geography – Thesis: Optical and Radar Remotely Sensed Data for Large-area Wildlife Habitat Mapping

Jeanie Ethel Wills

Saskatoon

Interdisciplinary Graduate Studies – Thesis: Rhetorical Motives in Advertising: A Theory of Advertising as Religious Discourse

CEREMONY 2

SATURDAY, OCTOBER 22, 2011

2:00 P.M.

Graduates of

Agriculture and Bioresources

Education

Engineering

Kinesiology

Law

Medicine

Nursing

Pharmacy and Nutrition

Physical Therapy

Veterinary Medicine

Undergraduate degrees, graduate degrees and certificates for the graduates of
Agriculture and Bioresources, Education, Engineering, Kinesiology, Law, Medicine, Nursing,
Pharmacy and Nutrition, School of Physical Therapy and Veterinary Medicine

October 22, 2011 • 2:00 p.m.
Chancellor Vera Pezer, B.A., M.A., Ph.D., presiding

PRE-ADDRESS

University of Saskatchewan Alumni Association

PROCESSION

Graduands in the order in which degrees are to be conferred; Faculty; Board of Governors; Senate;
Guests of Honour; The President; The Chancellor; The Lieutenant Governor

WELCOME

Lea Pennock, University Secretary

O CANADA

Whitney Mather

INVOCATION

Ms. Madeline Oliver, University Chaplain

INTRODUCTIONS

Lea Pennock, University Secretary

PRESIDENT'S STATE OF THE
UNIVERSITY REPORT

Peter MacKinnon

MUSICAL INTERLUDE

Lyric Essay by Donald Coakley
The University Wind Orchestra conducted by Darrin Oehlerking

CONFERRING OF DEGREES

PETITION FOR ADMISSION

Lea Pennock, University Secretary

PRESENTATION OF GRADUANDS TO THE
CHANCELLOR

Agriculture and Bioresources presented by Dean Mary Buhr
Education presented by Dean Cecilia Reynolds
Engineering presented by Dean Ernie Barber
Kinesiology presented by Associate Dean Adam Baxter-Jones
Law presented by Dean Sanjeev Anand
Medicine presented by Associate Dean Biomedical Sciences and Graduate Studies Nick Ovsenek
Nursing presented by Dean Lorna Butler and Assistant Dean, Graduate Studies Lynnette Stamler
Pharmacy and Nutrition presented by Associate Dean Graduate Studies and Research Alfred Rémillard
Physical Therapy presented by Associate Dean Liz Harrison
Veterinary Medicine presented by Associate Dean of Research Baljit Singh
Doctor of Philosophy presented by Dean Lawrence Martz

ADMISSION TO DEGREES IN ABSENTIA

Vera Pezer, Chancellor

PRESENTATION OF AWARDS TO THE
MOST DISTINGUISHED GRADUATES

Saskatchewan Teachers' Federation Prize presented to Jordan Adam Dale Reynaud
University Prize in Nursing presented to Melissa Jo Lichtenwald
Arthritis Society Talmage E. Hunt Gold Medal in Physical Therapy presented to Myriam Susie Nelson

PRESENTATION OF AWARDS TO FACULTY
AND STAFF

Master Teacher Award presented to Ken Van Rees
New Researcher Award presented to Dwight Newman

MESSAGE FROM THE ALUMNI
ASSOCIATION

University of Saskatchewan Alumni Association

CONCLUDING REMARKS

Chancellor Pezer

GOD SAVE THE QUEEN

Whitney Mather
*God save our gracious Queen,
Long live our noble Queen, God save the Queen
Send her victorious, happy and glorious
Long to reign over us, God save the Queen*

AGRICULTURE AND BIORESOURCES, EDUCATION, ENGINEERING, KINESIOLOGY, LAW, MEDICINE, NURSING, PHARMACY AND NUTRITION, SCHOOL OF PHYSICAL THERAPY AND VETERINARY MEDICINE

Degrees, Diplomas and Certificates

COLLEGE OF AGRICULTURE AND BIORESOURCES

DIPLOMA IN AGRIBUSINESS

Shayne Garnet Hannon
Kindersley

Riley Ford Nisbet
Wiseton

DIPLOMA IN AGRONOMY

Eric Kenneth Madland
Young

Ashton Alan Trawin
Melfort
with Distinction

CERTIFICATE IN INDIGENOUS PEOPLES RESOURCE MANAGEMENT

Loretta May Douglas
Saskatoon

BACHELOR OF SCIENCE IN AGRIBUSINESS

Rylan Chase Bailey
Milden

BACHELOR OF SCIENCE IN AGRICULTURE

Michael Theodore Hoehne
Leask
Animal Science

Kelly John Wallace
Swift Current
Animal Science

Kristina Raedawn Seray
Sheho
Animal Science

MASTER OF SCIENCE

Victor Pratim Das
India

Interdisciplinary Graduate Studies – Thesis:
Challenges Facing the Successful Introduction
of Plant- derived Vaccines as an Alternative or
Complement to Conventional Vaccines

Buwani Elgiriya Dayananda
Sri Lanka

Agricultural Economics – Thesis: The European
Union Policy of Zero Tolerance: Insights from the
Discovery of CDC Triffid

Vitor Caminha Faustino Dias
Brazil

Agricultural Economics – Thesis: Values of
Ecological Goods and Services Provided by Wetland
for Policy Development in Saskatchewan

Hanny Tarek Elsadr
Toronto, Ontario

Plant Science – Thesis: Characterization of Post
Harvest Seed Coat Darkening and Condensed Tannin
Accumulation During Seed Coat Development in
Common Bean (*Phaseolus vulgaris L.*)

Janelle Margaret Fohue
Saskatoon

Animal Science – Thesis: Effect of Particle Size and
Extrusion Processing Parameters on In Vitro Starch
Fractions, In Vivo Starch Digestibility and Glycemic
Index of Field Pea in Dogs

Lynne Carmen Girardin
Meyronne

Animal Science – Thesis: Comparison of Early
(March) and Late (June) Calving Systems on Cow
and Pre-weaning Calf Performance and Cost of
Production on Western Canadian Prairies

Hwee Yoong Gok
Malaysia

Food Science – Thesis: Development of Sodium
Alkoxide Catalysts from Polyols for Biodiesel
Production

Bo Gui
People's Republic of China

Food Science – Thesis: Cyclolipopeptides in
Flaxseed and Flaxseed Products

Amanda Evelyn Hunter
Onoway, Alberta

Soil Science – Thesis: Investigation of Water
Repellency and Critical Water Content in
Undisturbed and Reclaimed Soils from the Athabasca
Oil Sands Region of Alberta, Canada

Holly Michelle Hynes
Kingston, Ontario

Soil Science – Thesis: Impact of Forest Harvesting
on Soil Microbial Communities and Nutrient
Cycling in Forest Soils of the Boreal Plain, Alberta

Kelly Alyson Konecsni
Saskatoon

Food Science – Thesis: Analysis and Entrapment
of Select Antioxidants from Chokecherry and
Saskatoon Berry Fruits

Ricky Sze Ho Lam
People's Republic of China

Food Science – Thesis: The Crystallization and
Nucleation of Stearic Acid Containing Molecules
Under Non-Isothermal Cooling Conditions

Russell Jay Lawrence
Saskatoon

Agricultural Economics – Thesis: Grains, Trains and
Chains: An Agent-Based Model of the Western Canadian
Grain Handling and Transportation Supply Chain

Amanda Marie Mycock
Humboldt

Soil Science – Thesis: Characterizing Organic
Matter and Nutrient Status in Smelter-Affected Soils

Jaclyn Mercedes Prystupa
Saskatoon

Animal Science – Project: Genetic Diversity in
Canadian, Mountain and Moorland, and Nordic Pony
Populations

Hayley Joyce Rutherford
Ridgeway, Ontario

Food Science – Thesis: Structural Investigations
of Liposomes: Effect of Phospholipid Hydrocarbon
Length and the Incorporation of Sphingomyelin

Amber Brooke Smith
Craik

Soil Science – Thesis: Nutrient Export in Run-off
from an In-field Cattle Overwintering Site in East-
Central Saskatchewan

Lane Connor Stoll
Neudorf

Food Science – Thesis: Effect of Feeding Various
Dried Distillers Grains Plus Solubles on Beef Meat
Quality

Carol Ann Thomson
Dinsmore

Agricultural Economics – Thesis:
Entrepreneurship and International Trade

Alphonso Williams
Jamaica

Agricultural Economics – Thesis: Trade
Implications of the Revised US and EU Biofuel
Mandates

COLLEGE OF EDUCATION

CERTIFICATE IN TECHNICAL VOCATIONAL EDUCATION

Hoang Quang Tran
Saskatoon

AGRICULTURE AND BIORESOURCES, EDUCATION, ENGINEERING, KINESIOLOGY, LAW, MEDICINE, NURSING,
PHARMACY AND NUTRITION, SCHOOL OF PHYSICAL THERAPY AND VETERINARY MEDICINE

Degrees, Diplomas and Certificates

BACHELOR OF EDUCATION

Christopher Oscar Arsenault
Maidstone

Verna Ellen Buffalo
Whitecap Dakota/Sioux First Nation

Richard John Casement
Leslie
with Distinction

Glen Barry Durocher
Canoe Lake Cree Nation

Shalen Lee Fox
North Battleford

Patricia Heather Gardipy
Kinistino

Beverly Ann Hussey
Gander, Newfoundland and Labrador
with Distinction

Natasha Rae Isaac
Broadview
with Distinction

Craig Donald Junk
Annaheim

Mary Ann Kkailther
Wollaston Lake

Janell Nicole Loranger
Meadow Lake
with Distinction

Matthew Jeffrey Love
Calgary, Alberta
with Great Distinction

Laurie-Ann Maureen Moosomin
North Battleford

Russell Pete Paskimin
Red Pheasant First Nation
with Distinction

Lisa Marie Paskimin
Sweetgrass First Nation
with Distinction

Lisa Mae Victoria Pedersen
Buffalo Narrows

Daniel Edward Quintal
Prince Albert
with Distinction

Jordan Adam Dale Reynaud
Prince Albert
with Great Distinction

Warren Matthew Sandor
Glentworth
with Distinction

Lauren Gay Schensney-Chery
Radisson
with Distinction

Glenda Marie Scrimshaw
Duck Lake

Lori Margaret Skjeie
Saskatoon
with Distinction

Petrina Lynn Turner
Ahtahkakoop First Nation

POST DEGREE
CERTIFICATE IN
EDUCATION: SPECIAL
EDUCATION

Nadine Isabel Bouchard
Debden

Lori Ann Classen
Saskatoon

Lindsay Louise Crittenden
Watrous

Reanna Grace Daniels
Little Pine First Nation

Candice Joy Dwernychuk
Sucker Creek Cree First Nation

Natasha Lynn Ens
Saskatoon

Kylie Kris Gervais
Saskatoon

Laura Catherine Glass
Saskatoon

Allison Laura Hansen
Saskatoon

Brandi Lee Kelsie
Saskatoon

Jonathan Joseph Koch
Marsden

Kelly Dawn McLarty
Humboldt

Stephanie Ann Moorman
Humboldt

Meaghan Elizabeth O'Rourke
Exeter, Ontario

Deborah Marie Seib
Deschambault Lake

Kristin Tara Teneycke
Young

Tracy Leanne Weightman
Warman

Dorothy Ellen Wionzek
Saskatoon

MASTER OF EDUCATION

Mercy Akosua Ansa Addo
Saskatoon
Educational Psychology and Special Education
– Thesis: Minority Students and Special Education

Hazel Marie Ahenakew
Ahtahkakoop First Nation
Educational Foundations

Natalie Leanne Aldridge
Lac La Ronge
Educational Administration

Trina Marie Anderson
Green Lake
Educational Administration

Rita Josephine Arnault
Green Lake
Educational Administration

Dana Evelyn Bain
Moosomin
Educational Psychology and Special Education
– Thesis: Awareness Creates Opportunity: A
Narrative Study of Resilience in Adult Children of
Alcoholics

Chantelle Lee Balicki
Saskatoon
Educational Psychology and Special Education

Conor William Barker
Saskatoon
Educational Psychology and Special Education
– Thesis: The Assessment of English Language
Learners: Saskatchewan School Perspectives

Ruth Bellegarde
Balcarres
Educational Foundations

Lorna Bighetty
Pukatawagan, Manitoba
Educational Foundations

Simon Daniel Bird
Southend
Educational Administration

Laverna Heather Blind
Gordon First Nation
Educational Administration

MASTER OF ENGINEERING

Vamsi Rajeev Avala
India

Chemical Engineering – Project: Simulation and Economic Evaluation of Algae to Ethanol

Voke Eruvwetaghware
Nigeria

Environmental Engineering – Project: Processing of Alpaca Fibre for the Textile Industries

Tyrel John Lloyd
Unity

Environmental Engineering – Project: Statistical Investigation of the Deviation Between Stream Discharge Measurements

Michael James McAllister
Sundre, Alberta

Civil Engineering – Project: A Log-Based Investigation into the Presence of Natural Fractures in the Lea Park Formation, Weyburn Oil Field, Saskatchewan

Ifeanyi Chibueze Onyeka
Nigeria

Mechanical Engineering – Project: Nucleation Enhancement Studies of CVD Diamond on Silicon Substrates Pre-treated by Different Materials

PengFei Tong

People's Republic of China

Civil Engineering – Project: Calibration of the Patch Load Analysis Method for Guyed Masts

MASTER OF SCIENCE

Aderopo Omorinu Adesola
Nigeria

Mechanical Engineering – Thesis: Damage Evolution in AA2099 and AA6061 Aluminum Alloys Under Quasi-Static and Dynamic Mechanical Loading

Kawsar Ahmed
Saskatoon

Civil Engineering – Thesis: Evaluation of Contact and Non-Contact Lap Splices in Concrete Block Masonry Specimens

Alvin Ceniza Alvarado
Philippines

Agricultural and Bioresource Engineering – Thesis: Control of Hydrogen Sulphide, Ammonia and Odour Emissions from Swine Barns using Zinc Oxide Nanoparticles

Piyali Biswas
India

Chemical Engineering – Thesis: Catalytic Performances of Ni(Mo)/Zr-SBA-15 Catalysts for the Hydrotreating of Bitumen Derived Heavy Gas Oil

Philip Effah Boahene
Ghana

Chemical Engineering – Thesis: Effect of Pore Diameter Variation of FeW/SBA-15 Supported Catalysts on Hydrotreating of Heavy Gas Oil from Athabasca Bitumen

Ning Cao

People's Republic of China

Biomedical Engineering – Thesis: Fabrication of Alginate Hydrogel Scaffolds and Cell Viability in Calcium-crosslinked Alginate Hydrogel

John Donald Coode

Saskatoon

Interdisciplinary Graduate Studies – Thesis: The Commercialization of Innovative Engineering Ideas: A Strategic Approach for Commercialization of Industry-Sponsored Entrepreneurial Projects at the University of Saskatchewan, College of Engineering

Jonathan Michael Meeres Godwin
Saskatoon

Chemical Engineering – Thesis: Immobilized Mediator Electrodes for Microbial Fuel Cells

Brandon Alexander Hall
Battleford

Mechanical Engineering – Thesis: Piezoelectric Energy Harvesting Utilizing Metalized Polyvinylidene fluoride (PVDF)

Joel Neil Hilderman
Wolseley

Civil Engineering – Thesis: Net Percolation as a Function of Topographic Variation in a Reclamation Cover Over a Saline-Sodic Overburden Dump

Li Yang Huang
People's Republic of China

Chemical Engineering – Thesis: Bioremediation of Naphthenic Acids in a Circulating Packed Bed Bioreactor

Mohammad Izadifar
Iran

Biomedical Engineering – Thesis: A Porous Media Approach Towards A Dynamic Mechanistic Model of Drug Elimination by the Liver

Vishesh Kalra
India

Electrical Engineering – Thesis: Comparative Analysis of Dirac PRO-VC-2, H. 264 AVC and AVS China-P7

Patricia Dionne Lung
Humboldt

Agricultural and Bioresource Engineering – Thesis: Solid-state Anaerobic Digestion for Integrated Ethanol Production

AGRICULTURE AND BIORESOURCES, EDUCATION, ENGINEERING, KINESIOLOGY, LAW, MEDICINE, NURSING, PHARMACY AND NUTRITION, SCHOOL OF PHYSICAL THERAPY AND VETERINARY MEDICINE

Degrees, Diplomas and Certificates

Urvi Malhotra

India

Electrical Engineering – Thesis: An Adaptive Add-on Control System for a Unified Power Flow Controller

Tracy Joy McArthur

Tisdale

Civil Engineering – Thesis: A Model Study of the Hydraulics Related to Fish Passage Through Embedded Culverts

Shrey Modi

India

Mechanical Engineering – Thesis: Improving Human-Machine Interaction

Prabhu Narayanasarma

India

Chemical Engineering – Thesis: Mesoporous Carbon Supported NiMo Catalyst for the Hydrotreating of Coker Gas Oil

Sujata Panigrahi

India

Electrical Engineering – Thesis: Europium and Samarium Doped Fluorochlorozirconate – (FCZ) Glasses for Optoelectronics Applications: Thermal and Optical Properties

Crystal Dawn Rinas

Rosetown

Agricultural and Bioresource Engineering – Thesis: Simulated Plume Development and Decommissioning Using the Breakthrough Curves of Five Cations

Shufang Shen

People's Republic of China

Mechanical Engineering – Thesis: The Effects of Heat Input on Tensile and Fatigue Properties of Submerged Arc Welded ASTM A709 Grade 50 Steel

Irfan Unal

Saskatoon

Electrical Engineering – Thesis: Damping Power System Oscillations Using an SSSC-Based Hybrid Series Capacitive Compensation Scheme

Valérie Wellens

Laval PQ

Biomedical Engineering – Thesis: Heel Compliance and Walking Mechanics Using the Niagara Foot Prosthesis

Chun Yang

People's Republic of China

Biomedical Engineering – Thesis: Fatigue Effect on Task Performance in Haptic Virtual Environment for Home-based Rehabilitation

Fei Yu

People's Republic of China

Environmental Engineering – Thesis: Process Modeling of Very-High-Gravity Fermentation System Under Redox-Potential-Controlled Conditions

COLLEGE OF KINESIOLOGY

BACHELOR OF SCIENCE IN KINESIOLOGY

Lisa Dawn Arthurs

Burstall

Exercise and Sport Studies

Brittany Amanda Colson

Saskatoon

Physical Education Studies
with Distinction

MASTER OF SCIENCE

Lenka Šeniglová

Czech Republic

Kinesiology – Thesis: Injury and its Association with Training in Female Youth Figure Skaters

Michael Jeffrey Smith

Saskatoon

Kinesiology – Thesis: The Effect of Ankle Bracing on Joint Dynamics in the Lower Limb During Jumping Tasks in Elite Female Athletes

Robin Renee Thurmeier

Sourthey

Kinesiology – Thesis: What's Sport Got To Do With It? Women with Disabilities and Identity

COLLEGE OF LAW

JURIS DOCTOR

Brant William Field

Winnipeg, Manitoba

Jennifer Ellen Kelly

Swift Current

Avery Dawn Layh

Langenburg

COLLEGE OF MEDICINE

MASTER OF SCIENCE

Kunal Sanjay Baxi

India

Microbiology and Immunology – Thesis: Towards Construction and Validation of an Ends-In Recombination System in Escherichia coli

Hayley Marie Britz

Muenster

Anatomy and Cell Biology – Thesis: The Development of a Small Animal Model for Assessing the 3D Implications of Loading on Bone Microarchitecture

Brittany Nicole Cazakoff

Shaunavon

Physiology – Thesis: Spontaneous Recognition in Rats: Synaptic Plasticity and Neurodevelopmental Challenge

Terrie Fitzpatrick

Marquis

Community Health and Epidemiology – Thesis: Factors Associated With Perceived Time Pressure Among Canadian Working Parents: Does Gender Make a Difference?

AGRICULTURE AND BIORESOURCES, EDUCATION, ENGINEERING, KINESIOLOGY, LAW, MEDICINE, NURSING, PHARMACY AND NUTRITION, SCHOOL OF PHYSICAL THERAPY AND VETERINARY MEDICINE

Degrees, Diplomas and Certificates

Jessica Michelle Grant

Saskatoon

Community Health and Epidemiology – Project:
The Determinants of Tuberculosis Transmission in
Indigenous People in Canada and New Zealand

Briana Nisa Hagen

Winnipeg, Manitoba

Community Health and Epidemiology – Thesis:
Exploring Relationships Between Socioeconomic
Position, Family Context, Culture and Suicidality
among Metis Peoples: Reflections from the 2006
Aboriginal Peoples Survey

Jiayi Han

People's Republic of China

Biochemistry – Thesis: Regulation of Acyl-
CoA:Diacylglycerol Acyltransferase-1 by Protein
Phosphorylation

Stephanie Catherine Kendall

Flin Flon, Manitoba

Biochemistry – Thesis: Structural Characterization
of the N-terminal Region of the Saccharomyces
Cerevisiae G-Protein Coupled Receptor, Ste2p

Sarah Catherine Klatt

Regina

Biochemistry – Thesis: TSDHN-2, A Unique
Dehydrin Protein from *Thellungiella* and its Role in
Salt Tolerance

Stephanie Konrad

Kamloops, British Columbia

Community Health and Epidemiology
– Thesis: Identifying Determinants of HIV Disease
Progression in Saskatoon, Saskatchewan

Xi Lei

People's Republic of China

Pharmacology – Thesis: The Role of LSP1 in
Microvascular Hyperpermeability During Neutrophil
Recruitment in Vivo

Mingmin Liao

Saskatoon

Microbiology and Immunology – Thesis:
Molecular Epidemiology and Molecular Mechanisms
in *Neisseria gonorrhoeae* in China: Implications for
Disease Control

Nicole Lynn Longmuir

Quill Lake

Physiology – Thesis: Regulation of Adenosine
Transporter and AMPA Receptor Subunit
Localization by Protein Kinase CK2 in Rat
Hippocampus

Jo-Anne Marcoux

Saskatoon

Health Sciences – Thesis: Biocompatible Circuits:
Inflammation and Soluble Adhesion Molecules After
Cardiopulmonary Bypass

Naima Mumtaz

Australia

Physiology – Thesis: Acute and Chronic Adaptation
of Supraoptic Neurons to Changes in Osmolality

Ashley Anne Untereiner

Regina

Pharmacology – Thesis: Enhanced Methylglyoxal
Formation in Cystathionine Gamma- lyase Knockout
Mice

Bharathikumar Vellalore

Maruthachalam

India

Biochemistry – Thesis: Lariat Peptide Inhibitors
of Abl Kinase

Tuo Zhao

People's Republic of China

Psychiatry – Thesis: The Distribution of
p38(MAPK) in the Sensorimotor Cortex of a Mouse
Model of Alzheimer's Disease

WESTERN COLLEGE OF VETERINARY MEDICINE

MASTER OF SCIENCE

Tim Wayne Bodnarchuk
Birch Hills

Veterinary Microbiology – Thesis: Zhangfei Suppresses the Growth of Medulloblastoma Cells and Commits Them to Programmed Cell Death

Charlene Carol Burnett-Seidel
Saskatoon

Toxicology – Thesis: Evaluation of Approaches for the Derivation of Defensible Sediment Quality Guidelines for Application at Saskatchewan Uranium Operations

Miriam Pilar Cervantes Flores
Peru

Veterinary Biomedical Sciences – Thesis: The Rabbit as an Animal Model for the Study of Ovulation-inducing Factor

Patrick Norbert Fries
Moose Jaw

Veterinary Microbiology – Thesis: Distribution and Frequency of Myeloid and T Cell Populations in the Small Intestine of Newborn and Weaned Calves

Farhad Ghasemi
Iran

Large Animal Clinical Sciences – Thesis: Characterization of Endometritis in Postpartum Dairy Cows

Meghan Minetta Lee Goertzen
Saskatoon

Toxicology – Thesis: Swimming Performance and Energy Homeostatic Effects of Uranium Mill Effluent Exposure in Small-Bodied Fish

Nikki Lee Leavins
Swift Current

Veterinary Biomedical Sciences – Thesis: Influence of Estradiol on In Vitro Maturation of Porcine Oocytes

Jesús Manuel Palomino Cano
Peru

Veterinary Biomedical Sciences – Thesis: Ovarian Synchronization and Superstimulation in Wood Bison (*Bison bison atabascas*)

James Robert Phibbs
Victoria, British Columbia

Toxicology – Thesis: Evaluating Dietary Selenium Uptake and Speciation Downstream of a Uranium Processing Mill using Caged Small-Bodied Fish

Leanne Margaret Van De Weyer
Weyburn

Large Animal Clinical Sciences – Thesis: Serum Micronutrient Concentrations in Western Canadian Beef Cattle at Pre-breeding and Pregnancy Testing

Iran Yousefi
Iran

Veterinary Microbiology – Thesis: Selective Activation of Unfolded Protein Response (UPR) by Herpes Simplex Virus Type 1 (HSV-1) in Permissive and Non Permissive Cells

MASTER OF VETERINARY SCIENCE

Candace Kaye Diane Grier-Lowe
Thompson, Manitoba

Small Animal Clinical Sciences – Project: A Randomized Prospective Double-Blind Trial of Breathalyzer® as a Chemical Anti-Plaque and Anti-Calculus Agent(s)

Sergio Alberto Sánchez Picado
Costa Rica

Veterinary Pathology – Project: A Retrospective Examination of Cases of Non-Suppurative Encephalitis in Beef Cattle for which a Cause has not been Identified

Lillian Su
United States of America

Small Animal Clinical Sciences – Project: Physical, Physiologic, Hematologic, and Biochemical changes in Healthy Border Collies undergoing a Standardized Strenuous Exercise Protocol

Fiona Man-Yee Tam
Toronto, Ontario

Small Animal Clinical Sciences – Project: Safety And Palatability of Polyethylene Glycol 3350 as an Oral Laxative in Cats

DOCTOR OF PHILOSOPHY

Phani Kumar Adapa
Saskatoon

Agricultural and Bioresource Engineering – Thesis: Densification of Selected Agricultural Crop Residues as Feedstock for the Biofuel Industry

James Addey Kwabena Amanie
Saskatoon

Mechanical Engineering – Thesis: The Effect of Submerged Arc Welding Parameters on the Microstructure of SA516 and A709 Steel Welds.

Eric Kwabena Asare
Ghana

Plant Science – Thesis: Characterization of Barley (*Hordeum vulgare L.*) with Altered Carbohydrate Composition

Gurpreet Kaur Aulakh
India

Veterinary Biomedical Sciences – Thesis: Role of Angiostatin in Neutrophil Biology and Acute Lung Injury

Brian Michael Berscheid
Saskatoon

Electrical Engineering – Thesis: FPGA-Based DOCSIS Upstream Demodulation

Asim Biswas
India

Soil Science – Thesis: Multi-scale Controls on Spatial Patterns of Soil Water Storage in the Hummocky Regions of North America

Delgermaa Chuluunbaatar
Mongolia

Interdisciplinary Graduate Studies – Thesis: Introducing New Technologies for Sustainable Agricultural Development in Mongolia: Towards a Collaborative and Effective Extension System

AGRICULTURE AND BIORESOURCES, EDUCATION, ENGINEERING, KINESIOLOGY, LAW, MEDICINE, NURSING, PHARMACY AND NUTRITION, SCHOOL OF PHYSICAL THERAPY AND VETERINARY MEDICINE

Degrees, Diplomas and Certificates

Shannon Lea Dobko

Saskatoon

Educational Administration – Thesis: Contextual Risk and Protective Factors of Early Adolescent Schooling: Predictors of Multidimensional Student Engagement

Mohamed Salah Kamel Elsamahy

Egypt

Electrical Engineering – Thesis: Impacts of Midpoint FACTS Controllers on the Coordination Between Generator Phase Backup Protection and Generator Capability Limits

Ahmed Ghazy

Egypt

Mechanical Engineering – Thesis: Air Gaps in Protective Clothing during Flash Fire Exposure

Holly Ann Marrs

Thunderchild First Nation

Educational Psychology and Special Education – Thesis: Narrative Descriptions of miyo-mahcihoyan (Well-Being) From a Contemporary nehiyawak (Plains Cree) Perspective

Gary Groot

Saskatoon

Community Health and Epidemiology – Thesis: Predicting Local Recurrence Following Breast Conserving Therapy for Early Stage Breast Cancer: the Significance of a Narrow (less than or equal to) 2 mm Surgical Resection Margin

Arjan Jonker

Netherlands

Animal Science – Thesis: Characterization of Anthocyanidin-accumulating Lc-alfalfa for Ruminants: Nutritional Profiles, Digestibility, Availability and Molecular Structures, and Bloat Characteristics

Glyn Fraser Shaw Kennell

England

Chemical Engineering – Thesis: Electrolytic Transport, Electric Fields, and the Propensity for Charge Density in Electrolytes

Md. M Islam Konok

Waterhen Lake First Nation

Educational Administration – Thesis: Sustainable School Improvement: A Case Study of the Needs of two Bangladeshi Schools

Wai Man Kwong

Hong Kong

Toxicology – Thesis: Dietary Divalent Metal Uptake and Interactions in Freshwater Fish: Implications for Metal Toxicity

Louise Marie Legare

Saskatoon

Educational Administration – Thesis: Conversations About Wellness and Support in an Aboriginal Teacher Education Program

Bo Liao

Saskatoon

Biochemistry – Thesis: Engineering of Amyolytic Yeast Strains for Starch Fermentat

Claudia Avis Madampage

Sri Lanka

Biochemistry – Thesis: The First Step Towards the Development of an Electrophoretic Prion Detector

Kathleen Anne McIntosh

Saskatoon

Veterinary Microbiology – Thesis: Molecular Techniques in the Study and Control of Porcine Circovirus Type 2

Hazel Rae Mitten

Redvers

Interdisciplinary Graduate Studies – Thesis: Fetal Alcohol Spectrum Disorder: Circles of Healing, Transformation and Reconciliation, ke-ge-na-the-tum-we-in

Girija Gopinathan Nair

India

Nursing – Thesis: Preliminary Psychometric Characteristics of the Critical Thinking Self-Assessment Scale

Xuan Ha Nguyen

Vietnam

Electrical Engineering – Thesis: Cooperative Transmission Techniques in Wireless Communication Networks

Maxime Paré

Saint-Ambroise-de-Kildare, Quebec

Soil Science – Thesis: Organic Matter Quality in Cryosols: Effect on Soil Nitrogen Dynamics and Greenhouse Gas Emissions.

Tung Tran Pham

Vietnam

Electrical Engineering – Thesis: Power Allocation in Wireless Relay Networks

Naveen Varanahally Puttaswamy

India

Toxicology – Thesis: Evaluation of Metals Release from Oil Sands Coke: An Ecotoxicological Assessment of Risk and Hazard to Aquatic Invertebrates

Atabak Rashidian

Saskatoon

Electrical Engineering – Thesis: Photoresist-based Polymer Resonator Antennas (PRAs) with Lithographic Fabrication and Dielectric Resonator Antennas (DRAs) with Improved Performance

Joseph Elliot Rubin

Saskatoon

Veterinary Microbiology – Thesis: Prevalence of Colonization and Antimicrobial Resistance Among Coagulase Positive Staphylococci in Dogs, and the Relatedness of Canine and Human Staphylococcus Aureus

David Michael Schneberger

Saskatoon

Veterinary Biomedical Sciences – Thesis: Role of Toll-like Receptor 9 in Mouse Lung Inflammation in Response to Chicken Barn Air

Ki-Young Song

Korea

Biomedical Engineering – Thesis: Design and Fabrication of Novel Microfluidic Systems for Microsphere Generation

Eric Emerson Veikle

Cutknife

Agricultural and Bioresource Engineering – Thesis: Modeling the Power Requirements of a Rotary Feeding and Cutting System

Tao Wang

Saskatoon

Electrical Engineering – Thesis: Study of Single-Event Transient Effects on Analog Circuits

Amanda Lynn Stacy Wisner

Prince Albert

Veterinary Microbiology – Thesis: Role of Salmonella Enterica Subspecies Enterica Serovar Enteritidis Pathogenicity Island-2 in Chickens

Hossein Zakeri

Iran

Plant Science – Thesis: Nitrogen Acquisition of Lentil (*Lens culinaris Medic*) Under Varied Fertility Treatments, No Tillage Duration and Nitrogen Regimes in Saskatchewan

Xiaodong Zhang

People's Republic of China

Educational Administration – Thesis: Choices and Challenges: Chinese Graduate Students' Transitional Issues at a Canadian University

Ningning Zou

People's Republic of China

Agricultural Economics – Thesis: Canadian Consumers' Functional Food Choices: Labelling and Reference-Dependent Effects

I'm One

www.usask.ca/alumni

Now you're one too—a
member of the University of Saskatchewan
Alumni Association. Congratulations and
welcome to our alumni family—137,500
strong and growing.

UNIVERSITY OF SASKATCHEWAN
ALUMNI
ASSOCIATION

W. Brett Wilson, BE, co-founded one of Canada's leading energy-focused investment banks to become one of the country's foremost business leaders. He has earned a reputation for his philanthropy and was a co-star on CBC TV's *The Dragons' Den*. He was instrumental in the creation of the Centre for Entrepreneurial Excellence at the University of Saskatchewan.

Donald Worme, LLB, a member of the Kawacotoose First Nation, is a founding member of the Indigenous Bar Association of Canada and one of Saskatchewan's leading advocates for criminal law and treaty litigation. He has been actively involved in the development of public policy for aboriginal and treaty rights and recently received a National Aboriginal Achievement Award.

Colette Bourgonje, BA, BEd, is a 10-time Paralympic medalist. She has won four wheelchair racing medals in four summer games and six cross-country sit-ski medals in five winter games, including two medals—a silver and a bronze—at the 2010 Paralympics in Vancouver.

Guy Vanderhaeghe, BA, MA, DLitt, is a best-selling, award winning author. Among his many writing awards are two Governor General Awards—for *Man Descending* and *The Englishman's Boy*—and the Canadian Bookseller's Association Ex Libris Award for *The Last Crossing*.

Hon. Sylvia Fedoruk, BA, MA, LLD, was chief medical physicist for the Saskatchewan Cancer Foundation for 35 years and was involved in the development of the Cobalt 60 unit, which pioneered radiation treatment for cancer. She was the first female to serve as Lieutenant Governor of Saskatchewan.

Dr. Malcolm Wilson, MSc, PhD, was co-recipient of the 2007 Nobel Peace Prize, awarded jointly to former U.S. Vice-President Al Gore and the Intergovernmental Panel on Climate Change. He is a leading climate change researcher and is involved with several provincial, national, and international carbon capture projects.
